

MoorMan's® ShowTec® Pig Navigator

Product Number
10200DB

A Top-Dress Supplement for Pigs Being Fed for Exhibition

Product Positioning

ShowTec Pig Navigator is a top-dress supplement for use by progressive exhibitors to supplement Show Pig complete rations for enhanced lean growth and muscle expression.

Features

Provides 44% protein, 5% lysine, and 8% fat

Contains BlueLite Electrolytes™*

ADM exclusive yeast supplement

Unique combination of L-carnitine, chromium picolinate, and essential amino acids

Contains Appetin™*

Complexed (organic) trace minerals (manganese, copper and zinc)

Added natural-source vitamin E

Acidifier

Contains flavoring

Mini-pellet form

Benefits

Optimum lean growth.

Tissue rehydration following periods of stress, such as travel, co-mingling, and show handling.

Provides essential micronutrients to maximize digestion, which may enhance gain.

Enhanced muscle expression.

Improved ration digestion and availability of essential amino acids.

Promote healthy skin and hair growth; complexed trace minerals are more readily available compared to inorganic mineral sources, which could be crucial to the stressed show pig.

Protects body tissues from oxidative damage and enhances immune system function, which is especially critical under stress conditions. Research shows natural-source vitamin E is more bio-available compared with synthetic vitamin E.

Promote proper intestinal pH.

Improves palatability and feed intake.

Easy to top-dress and minimizes product separation.

Product Form: Mini-pellet form, 25 lb pail (10200DB).

*Not trademarks of ADM.
